

FINAL WEBSITE

This assignment will weight 1000 pts and 30% of your grade.

OVERALL ASSIGNMENT REQUIREMENTS:

- The assignment must be done only using Flexbox, else it will incur a 200 point deduction (-200 pts)
- The assignment must be done responsive, else it will incur a 100 point deduction (-100 pts)
- All flexbox declarations must include its -webkit counterpart
- Is the student's responsibility to check that all image references, css references, font references work as relative paths to each other. In the event the site is submitted and the references are not available or not connected properly it will be accounted as a fail for the full assignment
- Proof #1 and Proof #2 must be filled and scanned in order to be accounted for this assignment (50 pts each)
- The site must be presented to the class with a PowerPoint presentation and a demonstration of your site. (100 pts)
- At the end of your presentation the class will decide if the site would be purchased or not by the class. If the site is purchased then you will receive 50 pts towards your grade.

ASSIGNMENT WEIGHT DISTRIBUTION:

Extra Points (100 pts)

- Wireframes for all pages and them being implemented on the site (25 pts)
- Provide a Summary of Chapter 8 from Above the Fold. The summary must include your suggestions for your site along with their implementation. (25 pts)
- Provide a Summary of Chapter 9 from Above the Fold and explain how you would test and analyze the site based on your Creative Brief goals. (25 pts)
- Make your navigation mobile responsive using jQuery. (25pts)

BEM Site (300 pts)

- Do all components used on the site match your BEM? (100 pts)
- Does the typography match on both sites? (100 pts)
- Is the color scheme from BEM applied to the final website? (100 pts)

Completeness (700 pts)

- Does the site work on all major browsers (Chrome, Firefox, Safari, Edge and Internet Explorer 11)? (40 pts each)
- Are all required pages created for this site (21 in total)? (20 pts each)
- Does the folder structure and files match the required folder structure provided? (80 pts)

(See Reverse for details on pages and folder structure)
